(54) Title: A SHEET PAPER FOR IRREGULAR REFLECTION AND METHOD OF FABRICATING THE SAME

(57) Abstract: Disclosed herein is a sheet paper for irregular reflection. The sheet paper comprises, from the top thereof, a coating layer on which a hemispherical embossing is repeatedly formed at the one side of the sheet paper, a colored transparent paint film layer formed at the bottom surface of the coating layer having the embossing formed thereon, a glass bead layer formed on the bottom surface of the colored transparent paint film and having glass beads dispersed therein, a colorless transparent paint film layer formed on the bottom surface of the glass bead layer, and a silver paint film layer formed on the bottom surface of the colorless transparent paint film layer, wherein the glass beads are uniformly distributed and fixed in the colored transparent paint film layer and the colorless transparent paint film layer in such a manner that the surface of each bead is embedded in both layers by a half of the bead diameter respectively.
